

Five Reasons Why Lighting Programs Still Make a Difference

PREPARED FOR THE 2017 ENERGY STAR PARTNER
MEETING

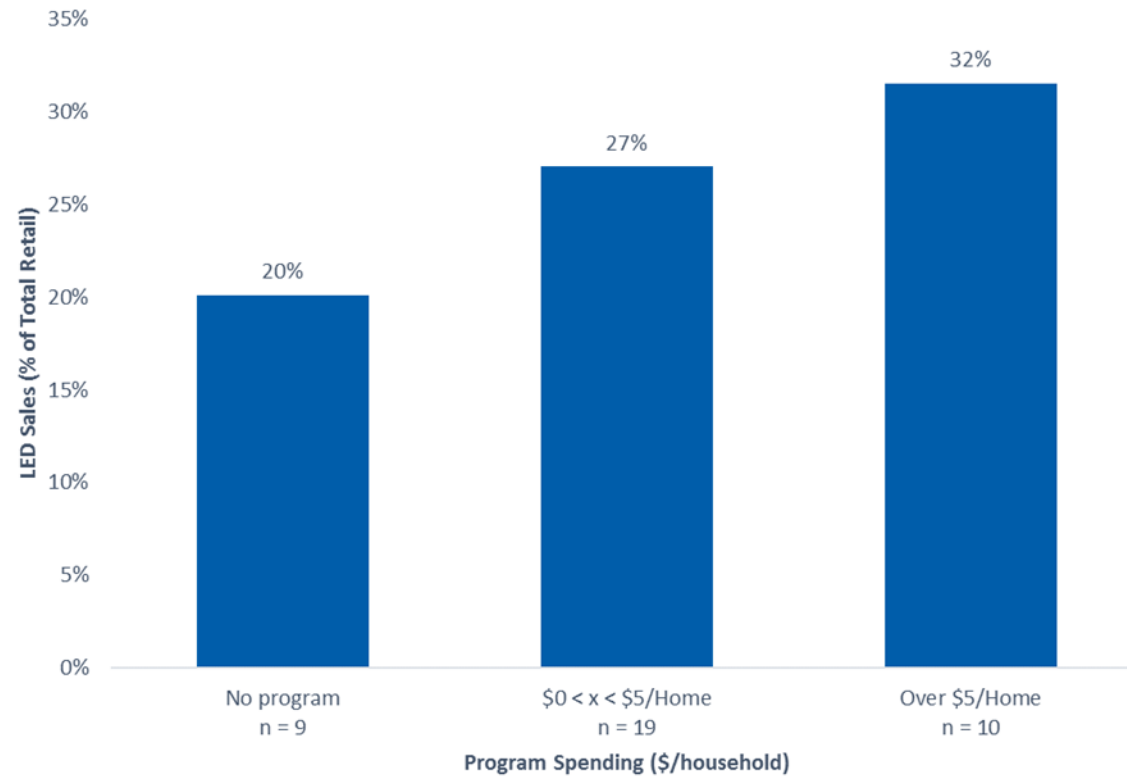

OCTOBER 23, 2017

Should Program Administrators Continue to Support Efficient Lighting?

The Key Question

Reason #1: LED Sales in States with Programs Significantly Outperform States Without Programs

Reason #2: ENERGY STAR LEDs are Battling for Market Share with Non-ENERGY STAR Lamps

Reason #3: ENERGY STAR LEDs Still Cost More Than Other Options

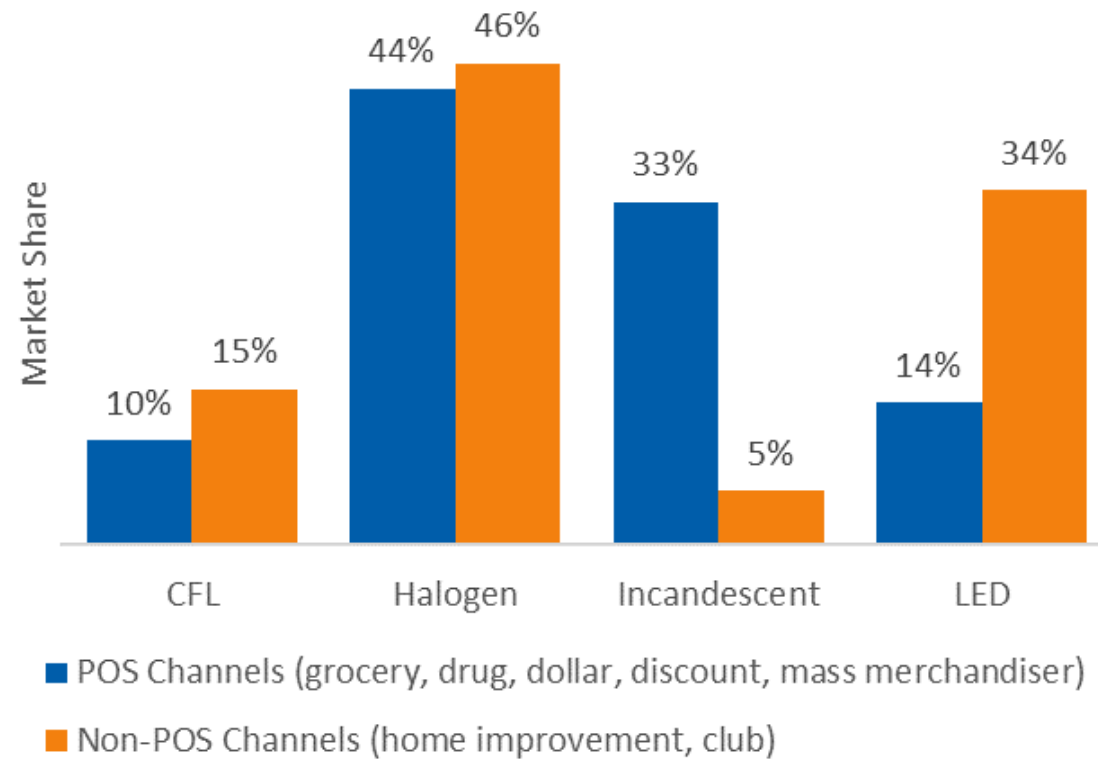

Reason #4: Halogen and Incandescent Lamps Continue to Have Substantial Market Share

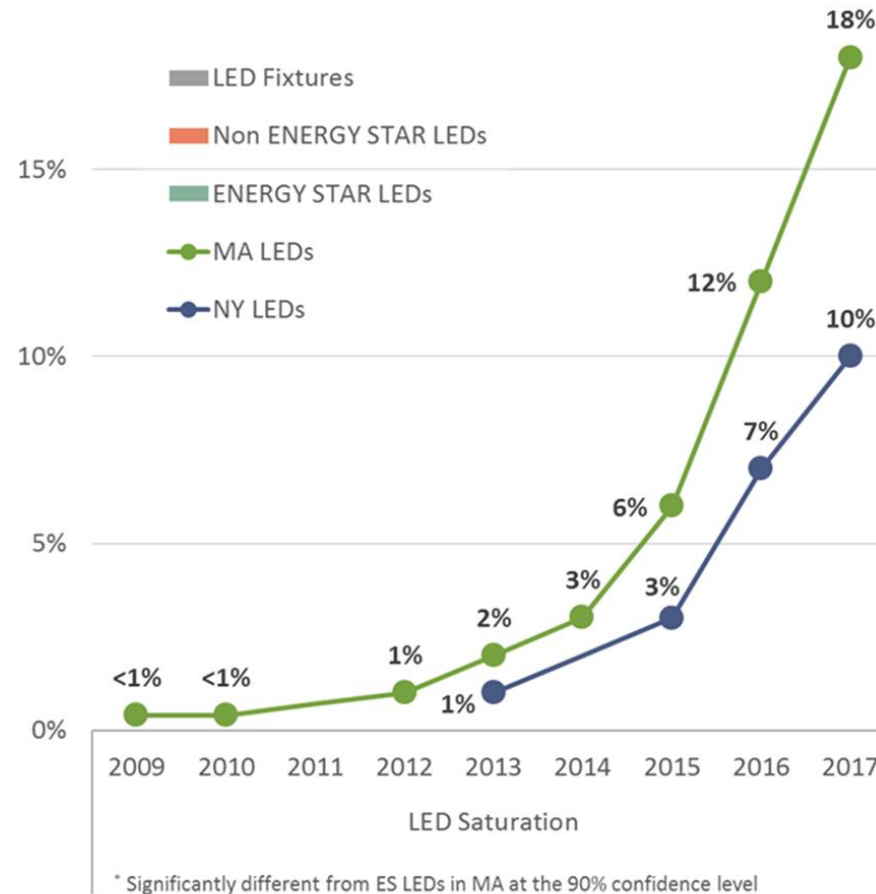

'All Bulb Types' Market Share in U.S.

Reason #4b: Incandescent Lamp Share is Even Higher for Selected Channels

Reason #5: There is Evidence of Backsliding in States that Have Cut Programs

And a Bonus Reason: Continued Uncertainty over EISA
